EASY JOSE COFFEE -Shepton Mallet

Working closely with remote Indigenous Communities, our mission is to help them grow incredible specialty coffee, in harmony with the forests they live in. Rainforest protection and defending against its destruction is a project we can all get behind.

Their coffee is, in the main, strictly high grown meaning that it is low in acidity, naturally low in caffeine and of market-leading quality. Their decaff is either natural spring water or carbon dioxide processed without the use of any harsh chemicals.

Choose from Flat White/ Americano/ Cappuccino/ Caffee Latte/ Espresso from £2.50

JEEVES & JERICHO TEA

At the very heart of our business is our ethical policy. We're underpinned by the strong belief that we want to give something back to the tea-growers. Through sourcing tea only through members of The Ethical Tea Partnership, we guarantee you, the tea-drinker, that the tea-estate workers who grow the teas we source have all been given a fair deal.

Whole-leaf tea a lot different to the 'dust' you usually get in those regular paper bags (pretty ropey stuff), it's all about timing.
